Upcoming Events

International Workshop on the Fundamentals of Domestic Safeguards Inspections

Domestic inspections play an important role in strengthening the national oversight of nuclear and radiological assets and also support implementation of international safeguards. By conducting domestic safeguards inspections, a State Authority can...

Date: 09/08/2014

Symposium on International Safeguards: Linking Strategy, Implementation and People

Every four years, the International Atomic Energy Agency's (IAEA's) Department of Safeguards organizes a safeguards symposium. These symposia provide an important forum for interaction between the IAEA and its Member States on a wide variety

Message from the Chair

The Asia-Pacific Safeguards Network (APSN) is an important initiative of the Asia-Pacific region that reflects the commitment of the community of safeguards authorities in the region to the peaceful uses of nuclear energy

The Importance of Safeguards

With growing interest worldwide in harnessing nuclear power to meet energy security needs, it is crucial for countries to support and abide by international safeguards systems that ensure the peaceful use of nuclear technologies and

2014 DELIVERABLE:
 New Website with Logo
 Simple Content Management System

Introducing the **new** APSN website
www.apsn-safeguards.org

Main Discussion Points:

- ❖ Maintaining a balance between the **public** and **secured** aspects of the website
 - Member Sharepoint to be integrated next year
 - Select content with leveled-access: (1) Member State Communications POCs and (2) Central Management Team/”Super Users”
- ❖ Utilizing the website *NOW* – uploading 5th Plenary content
- ❖ Collectively drafting a public message
- ❖ Importance of publicizing events and linking IAEA-published resources
- ❖ Creating more user-friendly guides
- ❖ Refining country profiles
- ❖ APSN Member State Responsibilities

Many of these points contributed initial input for the Website Information Protocol

Immediate (End of September 2014)

- Identify communications POCs (Send POC info to Oksana and Lovely)
- Upload select 5th Plenary content as a resource

Near-term (October – November 2014)

- WG III + Outgoing Chair + Incoming Chair – Draft of Information Protocol for Website
- Drafting of public message (and/or new message from new Chair?)
- Creating country profiles (until 2015)

Long-term (2015 up until next annual meeting)

- WG III – Work on “Members Only” section (Sharepoint)
- Achieve communications POC proficiency with website

Other communication issues (integrating ALL APSN communication efforts)
